

20 September 1974

MEMORANDUM FOR: Mr. Paul Walsh

1. In response to a crash request from Ambassador Vance's office (Special Assistant to Kissinger for Narcotics Matters), DDO/NARCOG asked us to undertake production of a series of brief intelligence assessments of narcotics situations in and around priority countries.

2. I reckon that some 20 or 25 countries are involved, and have laid on arrangements to have such papers produced for delivery--after coordination with the Drug Enforcement Administration--next week. These documents are to be used by regional narcotics committees meeting next week for purposes of world-wide program reviews, under Ambassador Vance's auspices.
